EDUCATIONAL PROGRAM STARTED BY FUND

SENATE INVESTIGATING COMMITTEE RECOMMENDATIONS CARRIED OUT

The following letter from Frank J. Creede to Senator Bert A. Cassidy of Auburn, a member of the Senate committee that investigated Compensation Insurance Rates on mining, informs him that a start has been made to carry out an educational program to help those participating in the mining industry to become more safely minded. The committee was an interim body that met for the purpose of carrying on the investigation and reporting back to the Senate before adjournment. The report was favorably received by both the press of the state and the industry interested. Newspapers declared the report to be one full of constructive suggestions.

"Hon. Bert A. Cassidy,
Auburn, Calif.
Dear Senator Cassidy:

It though you would be interested in the enclosed pamphlet. Following out the thought expressed in your report that a great deal of educational work must be done before the mining industry would become safety-minded, we are making a start along this line.

With best personal regards, I am
Sincerely yours,
FRANK J. CREEDE."

A portion of the circular which has been published by the Fund and is being circulated among the mining men is being printed herewith:

"Mine accident losses may be aptly compared to an iceberg. A small part is visible. But by far the larger part remains submerged and unseen.

"The visible, direct loss from mine accidents is due to the compensation of injured workers. This is the part reflected by your compensation insurance premium.

"The invisible, indirect loss is more complex. Damaged equipment. Time lost by curious or sympathetic fellow workers. Slowed up production. Labor troubles and bad feeling which often follow frequent accidents. All these and many other factors may enter into the indirect loss.

"This indirect loss is not covered by your insurance. It is an additional drain on your profits. The United States Bureau of Mines conservatively estimates that this hidden drain has cost California mine operators $7,255,500 during the last five years over and above their compensation insurance premiums which amounted to $2,084,300.

More Hidden Danger

"But even this indirect loss does not represent your total accident bill. From the same causes many accidents occur, which involve no personal injury or compensation payments. A cave-in many occur, fortunately just missing a man or a crew. Such a near accident causes no bodily injury. It calls for no compensation payments. Yet it may prove very expensive to you by delaying production, damaging equipment, reducing the efficiency of your workers by making them nervous, jumpy, or over-cautious.

"How important a factor are these near-accidents in your overhead? Here is an indication: The Department of Labor quotes on authoritative estimate which fixes the proportion of narrow escapes to disabling accidents at three hundred to one."

Mr. Creede is manager of the State Compensation Insurance Fund, with offides in San Francisco.

MITCHELL RANCH PROPERTY PLANS RENEWED ACTIVITY

Renewed activity at the Mitchell Ranch property, east of Grass Valley, was forecast by developments of last week. C. C. Mitchell, the owner, stated that important developments were pending.

A shaft has been sunk on this property and good ore of values were encountered.

NEVADA CITY IS BOOMING AT LAST

Whomsoever thinketh that Nevada City is not coming into more prominence than it has had in a generation before, has another think coming.

This district is now attracting more attention in a mining way than any other district along the entire west coast.

As many as three groups of men representing capital have sought information on mines here from a single source in one day of this week.

With the Murchie Mine production running into five figures monthly and only two of its twelve or more konwn veins as yet prospected. With it's highest grade ore running over five hundred dollars a ton. With the Hoge properties at shallow depth of 300 feet having an ore body exposed which the most conservative engineers admit has a visible gold value of $300,000, not counting it's $60,000 worth of ore on the dump which it has reserved from shipment. With the J. M. Hoff consolidations on upper Deer Creek, reopening the Bellefountain the Constitution, the Fedral Loan, the Lecompton and the St. Louis; the installation of modern flotation and the employment of many men, Nevada City now hasnotless than 200 men engaged in mining, or more than has been employed in this business since 1920.

This improvement is also reflected in the city itself. It is noted in increased automobile traffic to such an extent that we now have to look both ways before attempting to cross the street with as great care as we would in some of thelarger cities.

If someof the larger consolidations now being financed in the south are consummated Nevada City District will soon have no less than 500 men on her payrolls.

0

ANNUAL REUNION OF NEVADA COUNTIANS

Former Chief Justice Matt I. Sullivan of San Francisco and Governor James Rolph, Jr., will be guests of honor at the annual reunion and picnic of the former Nevada County Residents Association at the state fair grounds on June 14th This was announced recently.

Judge Sullivan will deliver the oration of the day. Last year 5,000 present and former Nevada County citizens attended the celebration, and this year a still larger crowd is expected. Wm. H. Shebley is the chairman of the committee on arrangements. Automobile caravans will bring large delegations from San Francisco, Grass Valley and Nevada City.

A tug-of-war between fire departments of Grass Valley and Nevada City will be a feature of the sports program, which will include the usual races and contests. A trophy is to be awarded the winner by T.C. Monk, Sacramento jeweler.

All persons attending are asked to bring basket lunches. Coffee, sugar, and cream will be served on the grounds.

Besides Chairman Shebley, other members of the committee inclue G. G. Radcliff, Wm. Hicks, Harriet Crider, Eugene Irving, Lewis Bane, Henry Wicks, Florence Morris, Wm. Torpie, Mary Frank, Clara Massie, Ed Melarkey, Wm. Mullenney, Fred Horrell, Elizabeth Stone and T. C. Monk.

0

GRIZZLY HILL HYDRAULIC MINE IS BEING TESTED

A thorough test is being given the gravel property of the Grizzly Hill Hydraulic Mine by P. Bouery, who for years was manager of the La Grange Hydraulic Mine in Trinity County, reputedly the largest hydraulic mine in the world. The mine is about two miles fromIndian Valley.

Mr. M. C. van Loben Sels president of the American Foundation company was in town this week in the interest of the Murchie Mine.

JUDGE WALLING IS CALLED HOME

Judge J. M. Walling, California pioneer, Civil War veteran and dean of the Nevada County bar passed away at an early hour Thursday morning.

While Judge Walling had been in feeble health for some time the news of his death spread over the community and county rapidly and caused the passing of many regrets

Julius M. Walling was born near Davenport, Iowa, June 21, 1841 where he was reared and educated.

He went to the aid of his country Aug. 12, 1861 as a private in the 8th Iowa Infantry. He was captured in April 1862 and spent a year in the famous Libby prison before being exchanged. He again joined General Grant's forces. In 1865 he was commissioned first lieutenant At the end of the war he washonorably discharged.

On March 1, 1866, Mr. Walling sailed from New York to California via Panama to join his father who had crossed the plains in 1850 and settled in Rough and Ready.

Later he attended business college in San Francisco from which he was graduated.

In 1872 Mr Walling was elected county recorder of Nevada County holding the office for one term. In the meantime he began his study of law. From 1874 to 1876 he served as Justice of the Peace in Nevada City. In 1876 he was admitted to the bar and began an active practice of law which he continued until about five years ago.

He wos married in Rough and Ready May 12, 1872 to Miss Columbine E. Snell. Mrs. Walling passed away seven years ago.

The following children survive: Mrs. Mamie Parsons, J. M. Jr. and George of Nevada City, Mrs. Vesta Maher of Oakland, and Earl of Fresno. A niece, Mrs. Maude Haynes of San Francisco was raised by the Wallings.

There are three grandchildren Rolla Arthur, Theodore Arthur and William Maber Jr. and two great William Maher, Jr., and two great and Donald Arthur.

Fraternally he was a member of Chattanooga Post 115 G. A. R. of which he was Past Commander. He also served as Department Commander of California and Nevada in 1894.

He was a Past Grand Master of the Odd Fellows and a member of theNeva Rebecca Lodge.

Funeral services will be at the Hall in Nevada City with the Odd Fellows having charge of the rites. Rev. Buckner will assist with the services.

At the grave the services will be in charge of the Spanish and World War veterans. Interment is at Pine Grove Cemetery.

0

EMPIRE COUNTRY CLUB REELECTED OFFICIERS

Eighty members of the Empire Country Club were present at the annual dinner meeting of the club Tuesday evening.

Mrs. J. C. Tyrell,president and and Mrs W. E. Wright se,cretary were reelected for the ensuing yea

Mrs. C. Bennetts was chairman of the meeting. Bridge and Mah Jong were played. Dr. and Mrs. Shirkey won the honors at Bridge and Mrs. C. Ferguson in Mah Jongg

FRANK J. GLUYAS MINE SUPT. DIES

Frank J. Gluyas passed away Saturday evening at midnight on the train enroute to his home in Los Angeles after a visit of two months with his sister, Mrs. W. B. Rishards He was accompanied on the trip south by Thomas G. Richards of this city. His death was due to pernicious anemia and upon the advice of local physicians sought the lower altitude but the droed disease had made too great inroads on his health, and death overtook him before he reached home.

Born in Amador City, Amador County, October 3, 1860, he was the son of the late Mr. and Mrs. James B. Gluyas, pioneers of California. When four years of age he came to Grass Valley with his parentsandattended the schols of that city.

In 1876 his parents moved to Gold Hill, Nevada, taking the young lad with them. Later he went to San Francisco and spent four years at the Risdon Iron works learning the trade of machinist and draftsman.

He returned to Grass Valley in 1880 and helped to install the machinery in the North Star Mine and for three years was chief engineer at the mine.

In 1890 he went to Rosario, Sinaloa, Mexico, where he was superintendent of the Minas del Tajo owned by Bradbury Bros. of Los Angeles. He returned to California but went again to Mexico in 1915.

While in Mexico he had many experiences with the bandits being surrounded twice and once he and one of his men were captured by some of Pancho Villa's men. He was released to get the ransome money but met the federal officers before he had gone far form the bandits camp.

He returned to California in 1918 but later went to Mexico again todevelop and operate other mines.

Failing inhealth he came to Nevada County hoping that the altitude would prove beneficial to his health. He enjoyed the visit with his sister and brother-in-law, Mr. and Mrs. W. G. Richards, very much and renewed old friendships.

He was very much impressed with the mining possibilities of this district and hoped to interest some of the mining companies in Mexico to come to this district. With this in mind he mailed a number of the Nugget'h Special Mining Number to friends in Mexico. He clung to the faith that his health would return and that he would be able to operate a mine in this district.

Heis survived by his widow, Mrs. Dora Gluyas of Los Angeles, a daughter, Mrs. Frances Craig of Dallas Texas and his sisters, Mrs. W. G. Ricards of this city, and Mrs. Clem Schuster, Mrs. H. Pfiefer of Applegate and a brother, H. G. Gluyas of Sinaloa, Mexico.

The funeral services were held Thursday afternoon in Los Angeles and the interment was made in that city.

0

W. E. Morris who was responsible in getting Fred Bradley interestet in the Boss Mine at Sweet land has been in French Corral the past week examining the Dahlberg property.

Here We Are

SIERRA CONSOLIDATED HAS REORGANIZED

The Sierra Consolidated situated in the Alleghany district has been leased to the Berkeley Mines, Ltd., composed of a group of men, stockholders, of the Sierra Consolidated who have faith in the mine and who are anxious to get the development work underway. The work will start by the 20th of the month

A group of officers and stockholders visited the property over the weekend. They inspected th property and visited other mines in the district including the famous producer the 16 to 1 which holds the record of gold production and which adjoins the property of the Sierra solidated.

Miles Brent made a survey of the mine tunnel and surface to determine the closeness to the contact. E. W. Brown another member of the party inspected the machinery and equipment and found both in excellent condition.

The party included Harry G. Mack President Sierra Consolidated, and Mrs. Mack. Frank Dievendorf, President Berkeley Mines, E. W. Brown R. H. Batchelor, R. W. Bachelor, Miles Brent, surveyor and engineer, Julius Delmothe and John WeWilde besides several interested prospective investors.

0

REPORT IS MADE EMPIRE-STAR MINE

While no statements are issued locally, a report reaching Grass Valley and Nevada City by way of San Francisco accredits the Empire-Star Mines Ltd., operating the merged Empire-North Star-Pennsylvania properties, with producing approximately $100,000 in gold per month. The company is understood to be operating at full capacity, with milling laregly concentrated at the Empire plant. In ecxess of 500 men are engaged in the various capacities.

It has been learned that renewed activity in the Allison ranch section are imminent, options having been taken on what is Syndicate ground and some adjoining holdings. The Allison Ranch Mine, once a noted producer, but closed for a number of years, is not included in the new consolidation, s far as known, the interest springing from favorable developments on the Twitchell ranch location to the eastward.

0

HOFF OPENS OFFICE IN NEVADA CITY

With his interests expanding in the Deer Creek district, and mill construction work about completed for the Federal Consolidated Mines, limited in the St. Louis and Constitution claims, J. M. Hoff, who opened the Murchie mine two years ago opened offices for his various activities at Pine and Broad Streets, Nevada City. Mr. Hoff has organized the Nevada County Mines Syndicate and the Steep Hollow Syndicate as subsidiary activities of the Federal Consolidated. The organization is now in control of a number of major properties and brings into the district a growing staff of field and office personnel. Associatew with Mr. Hoff is Attorney H. J. Rogers of San Francisco who has installed a Nevada City law office in connection with Mr. Hoff's activities. Mr. Rogers entered practice from the University of California, served a 4 year term as chief deputy auditor of Alameda county and was land and tax attorney with the Spring Valley Water Company at San Francisco. He later was with the securities division of the State Railroad Commissio and has enjoyed about twenty one years practice as a member of the California bar.

The Nevada City office will be headquarters for all the operations of Mr. Hoff. Oil flotation is to be introduced at once at the St. Louis mill and it is estimated that ore will be going through that plant within the next three weeks. Work is being pushed on the Constitution shaft, practically all the surface workings having been installed. Crews are busy on the Cyne, Belle Fountaine, LeCompton and Federal

DORR CO AND OLIVER UNITED FILTERS MERGE

MERGING OF THESE FIRMS PUTS NEW LIFE IN GOLD THE MINING INDUSTRY

John Van Nortrand Dorr and Edwin Letts Oliver have announced a union of the business and assets of The Dorr Company and Oliver United Filters, Inc. This union was brought about on June 1st by the formation of a new company, to be known as Dorr-Olive Corporation, under the joint management of Messrs. Dorr and Oliver.

Dorr-Oliver Corporation will function through its two wholly-owned operating units, a new Dorr Company, Inc., and a new Oliver United Filters Inc. Mr. Dorr and Mr. Oliver will lead their respective companies and with the aid of their present executive and technical staffs, will continue on behalf of Dorr-Oliver Corporation, the businesses which they have individually initiated, organized and expanded so successfully in the past.

The businesses of the two uniting companies are of long standing and complementary. The Dorr Company occupies a leading position in the fields of agitation, classification and sedimentation through its equipment, built up around the original inventions of its founder, John V. N. Dorr; and the Oliver United Filters Inc., occupies a similar position in the field of filtration through the inventions of Edwin L. Oliver and E. J. Sweetland.

The union should, therefore, make it possible offer to industry a more complete line of equipment and engineering service than either company could hope to offer individually.

The growth and success of the Dorr and Oliver businesses have been due, to a great extent, to constructive policies of constant development and research and a broadening of the fields of usefulness in anticipation of the constantly changing needs of the basic industries which they serve. Their field are related so closely from a technical standpoint, that the joint use of technical information and the carrying on of joint research and development is expected to result in more effective development and improvment which they have contributed to industry.

Both companies have built up technical staffs and manufacturing facilities at strategic locations throughout the world for the carrying on of their businesses which have grown to international proportions. The common use of these established facilities should give fuller prompter and more efficient service to clients.

The two companies have frequently cooperated on the same projects, and in many instances, the equipment of both is used at different stages of operation in the same plant. The founders of both companies have enjoyed a friendship extending over almost a quarter of a century and the long acquaintance of many members of the staffs has prepared them for effective cooperative effort.

Under the union of interest now effected, there will be preserved to client the close relations which they now enjoy with the respective staffs of the old organizations.

0

NEWTOWN MINE BEING UNWATERED AND SAMPLED

The water has been pumped from the Newtown mine west of Nevada City and sampling of the large ledge explored there by a former management, is under way.

Some of the ore in the Newtown section carries a heavy copper content, and when copper was at a good figure several parties looked over properties with a view to buying.

0

Miss Martha O'Connor has been elected to teach in the Pleasant Valley school.

Miss Therese O'Connof of French Corral was a Nevada City visitor Thursday.

0

Loan properties, each embracing a group of claims on Deer Creek just above the Murchie. A group of San Francisco and New York interests are financing Mr. Hoff's operations.

CONCENTRATES

BACK TO THE MINES!

By Edward B. Ashurst, of the Oregon Bar.

Possessed of a keen and analytical mind, John C. Calhoun advanced the idea that "the art of gain" was and will always be the courier of progress in civilization.

Without hope of material reward (wealth), no railroad track or mill would ever have been built, or field tilled, or flock or herd tended.

Making money is the outstanding object of existence, as without wealth (money), civilization would be shorn of its great cultural influences, schools, colleges and churches; dependent upon wealth are the national arts, literature and sciences.

To become wealthy one must engage in some kind of business, or one must inherit a fortune.

To amass a fortune, to accumulate wealth, we must conduct our business honestly and by honest methods.

* * *

Western mountains are rich with hidden treasures, and seeking will find them, andit is all clean yealth; none are robbed, cheated or impoverished; by their production all are enriched.

The progress and prosperity of the West received its greatest impetus from the discovery of gold in California in 1849, and in the history of nations there is no parallel with the growth of the West following this great discovery.

The fabled Argo, sailing in search of the Golden Fleece, neither bore nor found wealth which could be compared with that discovered and recovered by our early adventurers and pioneers, who, in the olden and golden days of '49 with ox teams crossed the plains, or who sailed around the Horn, andwho,by their privations, courage and daring, found and developed new sources of wealth, and who, by privations and hardships, and years of ceaseless toil and energy, laid the foundation oft he splendid commonwealths lying west of the Rocky Mountains.

What has been done can be done again, when once America is aroused from its indifference toward the mining industry ,and ceases its hostility toward those laboring for its expansion and development.

* * *

Under present conditions of overproduction the further increase of products of factory and field and loom will only incrtase the distress of industrial America and its citizens.

In the development of our mineral resources, gold, (and silver, if given proper recognition), lies America's salvation, and only solution of its present great pressing and urgent problem of unemployment and industrial stagnation.

Resumption of America's prosperity can be facilitated by neither tongue nor pen, but only by hard work, and a more intelligent and liberal attitude on the part of American financiers and business men toward the mining industry.

With the resumption of mining, the foundries and factories engaged Consolidated.

In the manufacture of mining equipment and supplies will hum wtih industry, affording employment to thousands. Lumber, now dragging on the market, will be utilized in mine building, and the construction of buildings in and about the mines and incident to the mining industry. Millions will be expended by th eminers and their families for neces ities and comforts, and in due time the luxuries of life.

* * *

Neither iron pen, music's myriad voices, nor eloquent lips, ardent with truth, and opulent with images of splendor, can give adequate utterance to the pageantry of prosperity, industrial activity and happiness assured to America and its citizens—once the American business man has the courage and daring and the faith possessed by his forebears, to give aid, assistance and recognition to the mining industry and its development. Upon whether or not America, American business men and American financiers have the intelligence and vision to develop the mineral resources of our western states, is contingnt the resumption of national prosperity.

Once recognition is given the American miner and mining man, and our great mineral resources are developed, it will be then, and not until then,

"That wealth shall swell the golden tide,
As busy trade her labor plies,
And architecture's noble pride
Bids elegance and splendor rise".

SIERRA CO ASKED TO ENTER FLOAT IN LOS ANGELES FIESTA

Sierra County, rich in mineral and other wealth and rich also in early California lore, has been asked to provide one of the most interesting floats which the state's fifty-eight counties have been invited to enter in the Admission Day parade September 9, one of the feature events of La Fiesta de Los Angeles the city's 150th birthday celebration, September 4 to 13.

Across Sierra County in the early days, and later during the gold rush of '40, trekked many pioneering caravans on some of the most momentous expeditions recorded in the annals of California history.

From this wealth of historic material Sierra County is enabled to draw a modern picture of much interest and impressiveness when worked into a historic float, fiesta heads pointed out.

La Fiesta's great Admission Day parade is only one of many feature events planned for Los Angeles' natal fete. The ten-day program will open with re-enactment of the founding scene, with actors impersonating Gov. Felipe de Neve and the eleven families of 44 persons whom he was instrumental in bringing from Mexico to found El Pueblo de Nuestra Senora la Reina de Los Angeles.

Romance of early California life then will be revived in pageant and playlet, barbacue and banquet, balls and street dancing, a two-day international air fete with some 600 flyers and 350 ships, water carnival and musical fiesta, World Congress of Riders with some 500 horses and riders, motion picture "Pageant of Jewels", and other events.

Townspeople and visitors will don Spanish and Mexican dress; music of those countries will fill the air and viands of the Latin nations will appear in profusion on all menu cards.

Native Sons and Daughters of the Golden West are in charge of La Fiesta's Admission Day program, marking the eighty-firt anniversary of California's statehood.—Downieville Messenger.

TO OUR BELOVED PIONEERS

By Joe M. Swazey

We read in our morning paper
That we receive day by day;
And we read with a touch of sadness
Of our pioneers, passing away.

We hate to read of their passing
Those souls whom we all loved so;
For they take with them sweet memories
Of the good old days long ago.

Yes, we hate to think they are going
To a paradise, far, far away;
For if it wasn't for our pioneers
Where would we be today?

'Twas by the untiring efforts
Of that brave and courageous band;
That we, who are their decendants
Have prospered in this promised land.

'Tis they who deserve our praises
Yes, deserve them again and again;
So it's up to us, their children to prove
That their efforts were not in vain

DEVELOPMENT OF ORE AT SAWMILL FLAT

Sonora, Calif, June 12,—W. C. Penrose of Columbia is developing a promising ore showing at his Golden Star mine, at Sawmill Flat, 2 miles north of Sonora. At the 180 ft. point in a 250 ft. tunnel extended more than a half century ago, he recently started a raise and has exposed in a vein varying in width from one to 3 ft. 12 inches of gold ore assaying $60. a ton, exclusive of high grade rock liberally impregnated with free gold found from time to time in opening up the showing. At the point of disclosure the vein gives a stoping depth of about 50 feet on the orebody. In a tunnel 200 feet farther down the mountainside, the same vein is exposed and further work on it will be prosecuted to open up the new orebody at that additional depth.

ASSEMBLYMAN SEAWELL EXPLAINS HIS BILLS

(By Jerrold L. Seawell)

This is the third of a series of articles of explanation of bills introduced by Assemblyman Seawell and passing both Houses of the Legislature.

Assembly Bill No. 1298 provides an appropriation of $55,000.00 for the purpose of bringing to California in the spring of 1932 the winners of the Skiing and Ice Skating events to be held at Lake Placid, New York as the Winter Sports program in connection with the Olympic Games to he held in Los Angeles in 1932.

The $55,000.00 hereby appropriated does not come out of the General Fund of the State Treasury but is a part of the premium derived from the sale of the Bond Issue of One Million dollars voted by the people in 1928 to defray the expenses of the Olympic Games to be held in Los Angeles.

This bill takes the $55,000.00 out of the Olympiad fund and places it in the General Fund of the State under the control of the Department of Finance, which is empowered to appoint a committee to carry on the program proposed and spend the money under the supervision of the Department of Finance.

It is proposed to hold the Skiing events in the Tahoe-Truckee Area and the Ice Skating events in the Yosemite Valley. It has been estimated by experts that in bringing the Champions of the Skiing events held at Lake Placid to California immediately following the contsets, will mean that approximately 50,000 tourists will visit the Tahoe-Truckee area to watch the Skiing experts perform in exhibition matches.

This would be of great value to Nevada and Placer Counties from an advertising viewpoint and would indicate to the world that California is a winter playground as well as a summer recreational paradise. The fact that we were able to obtain this appropriation without one cent of cost to the tax payer, and the advertising value to this district that will be derived therefrom could not be had by expending twice the amount of money to obtain like results, and is of unlimited value to the people of Nevada and Placer Counties.

Governor Rolph signed this bill Thursday, June 4h, 1931 and now we are assured that the Olympic Winter Events will be held as per the terms of the bill.

SUTTER CREEK MINES ARE SHOWING MUCH ACTIVITY

Sutter Creek, Calif., June 12—The orebody recently disclosed by the north drift on the 300-foot level of the Amador Star Mining Company property, 12 miles north of Sutter Creek, is responding to development in pleasing fashion, according to Manager John Ratto. Since exposed about three weeks ago, it has been followed for 50 ft. by the drift and has widened from a narrow quartz stringer to four feet between walls. Samples assayed show average values of $8. a ton in gold. Picked samples have yielded more than $1,700 a ton, it is stated.

Two feet of ore averaging $40 a ton is being mined in the sinking of a shaft, now down about 35 feet by P. F. Petersen and son, W. F. Petersen, on their 242-acre ranch, one mile northwest of Pine Grove. They are reducing the ore extracted in a three-stamp mill on the ranch, about a quarter of a mile distant from their shaft. In their sinking operations they are occasionally finding bunches of high grade rock of sensational value. When first exposed less than two feet below the surface, the ore showing measured only ten inches in width.

Lee Peyton of Volcano and associates have resumed the development of the Mitchell mine, near Pine Grove, under a lease and bond from the owner, John P. Davis of San Francisco. They are at present dewatering a 200 foot incline shaft which follows down a four-foot ledge that in past operations has yielded excellent returns, it is stated. The property is equipped with a 10-stamp mill.

Reconsidered

Phillippi—You know, I fell in love with Jack Huggins at first sight.

Perdita—When is your engagement to be announced?

Phillippi—Never. I took a second look.

Inappropriate

Beggar—Can you spare me a pair of very old shoes?

Lady—But you are wearing quite good ones.

Beggar—I know, ma'am, and they are ruining my whole business.

NEW BODY WILL WORK OUT BOND REFUND PROGRAM

With the signing by Gov. Rolph of the Cassidy bill providing for a new Bond Commission to help irrigation districts faced with the necessity of refunding their bonds, the problems of the Oakdale Irrigation District will probably be at once transferred to a new body, in order that some sort of program can be worked out to take care of the $80,000 bonds which will fall due July 1.

The new commission will succeed the Bond Certification Commission but will have enlarged powers intended to help the situation in the Oakdale district.

It will also be an official body which can be substituted for the Bankers' Bondholders' Committee recently organized by the San Francisco and Oakland bankers. The later committee still has not decided upon a report.

Director A. C. Pendergrass conferred with some of the members of the committee yesterday, endeavoring to hurry their report. The committee is considering three plans: first the one worked out by the board, second the one which provided for exclusion of some of the land in the district, but was found conld not be accompublished, and a third plan which would extend the payments for the refunding bonds over a period of fifty years instead of forty.—Oandale Leader.

LOS ANGELES MEN LEASE JAMESTOWN MINE

Jamestown, Calif., June 12.—It is learned from a reliable source that negotiations have been concluded by a syndicate of Los Angeles business and mining men, of which M. P. Waite is the moving factor and representative, for the acquisition, under lease and bond, of five adjoining groups of mines extending about three miles northward along the Mother Lode from a point one mile south of Jamestown. The groups involved in the transactions talline, Omega, Rawhide and Rappare known as the Harvard, Cryspahannock mines. In width they vary from 600 feet to a half mile. Some of them have notable past gold production records.

—0—

MINING ACTIVITY REVIVED IN STATE OF NEVADA

The San Francisco Mining Exchange reports that new mining developments at Hornsilver, Nev. have brought about the reopening of mines closed for more than a year.

The Ohio Mine has opened a snoot of mill re, 720 feet long, and the company plans the erection of a mill this year.

The Butler Gold Mining Company has resumed operations and new operators have taken over the Grand Central group of claims adjoining the property of the West Mines Company, according to the report.

The Grand Central made the first shipment of ore from this district in 1876.

Law enforcing agencies of the State and National Government have joined forces in a vigorous drive to end a "whispering" campaign of innuendo against financial institutions and intended, say the authorities, ultimately to destroy the National Government itself.

The services of the American Legion have been tendered the authorities and have been accepted.

Attorney General U. S. Webb and the U. S. Attorneys for Northern and Southern California call upon citizens generally to co-operate against the "common enemy."

Offenders, guilty of spreading the malicious propaganda, may be prosecuted under Section 6 of the Civil Rights Code which provides a maximum sentence of 10 years imprisonment and a fine of $5000.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

NOTHING'S TOO NICE FOR A BRIDE...

that's why her range is ELECTRIC

BRIDES OF TODAY and brides of other days—you can save time for rest and recreation when you cook with electricity

The electric range with its automatic time and temperature controls does the mechanical work which once kept women watching in the kitchen. But thanks to the electric range, those days are gone forever.

Today a complete meal is placed in the electric oven, say at 1 o'clock—Roast Beef, Browned Potatoes, Green Beans, and Fresh Pineapple Pudding. At 4 o'clock, while you are miles away, the electricity automatically turns on and keeps the oven at an even 400 degrees until 5:30, when the current turns off. The stored heat in the insulated oven keeps the food warm until you return home. Then you serve the meal—hot—and perfectly cooked.

You will also be delighted with the cleanliness of electric cooking. Moreover, the electric range is fast—new cooking elements make it so. Besides that, the cost for electricity is economical—4c worth of electricity, on the average, cooks the dinner for four persons. And the electric range itself costs no more than any other good range.

It's easy to have an electric range in your kitchen—just a few dollars down and a few dollars a month. Come into our office or a *dealer's* store today and select the model you prefer.

CENTRAL EUREKA CO. MAKES ANNUAL REPORT

SUTTER CREEK, Calif., JUNE4— The annual report of General Manager Albion S. Howe, just mad epublic, nevails that during the fisical year ended March 31 dast the Central Eureka Mining Company whose mines are located in this town, milled 54,026 tons of ore of an average essay value of $6.90 per ton, from which a recovery of $6.12 or about 88.7 per cent was made. Gold bullion recovery 13,575.22 ounces averaged $17.06 per ounce, making a total of $231,662.94, while concentrates recovery 1,278,468 tons amounted to $77.457 per ton or a total of $99,027.13, making a grand total for the two products of $330,690.07.

Ore extraction fro mthe Central Eureka mine of the company during the year amounted to 10,753 tons of which 3,144 tons came from stopes abve the 4,700-foot level and 15,609 tons from the 4,800-foot level stopes. The old Eureka mine of the company yielded 35,348 tons of ore which came from the stopes above the 2,000 and 21,00-foot levels and 300 tons from the stock bins. On account of the high cost of mining low grade ore in exceedingly heavy ground, at a depth of 4,800 feet, the management abonded ore extraction in the Central Eureka mine and has since confined its efforts to the development and production of ore in the Old Eureka mine, adjoining on the north. Total linear feet of work accomplished during the year, in which 1,239 feet was made in the Central Eureka and 1,704 in the Old Eureka.

President W. P. Henry states that June should prove a very important month for the company as the face of the 2,300-foot level north drift is now directly geneath the point on the 2,00-foot level at which No. 3 ore shoot was encountered. In consequence, important developments on the 2,300-foot level are impending. Mr. Henry also points out that the 1,550-foot north drift connecting the 2,540-foot level of the Central Eureka shaft, which was started last September, should be completed by the end of June. It will improve ventilation and provide a second exit for miners fromthe level named. It will also be used in handling mine water and effect a reduction in operation expenses.

President Walter Lucot of the Drytown Mining Cmpany, operating five miles north of Sutter Creek, announces that a substantial stock interest in that company has been purchased by the Zenith Company a holding corporation of Reno, Nevada. Dewatering of the 485-foot incline shaft on the property was recently started. The water has been lowered narly 100 fet below the shaft collor and has exposed in the face of a 75-foot north drift on the 50-foot level six feet of ore assaying $15 a ton in gold. At the 300-foot level, extensive development work on the Bonanza vein will be proscuted, while on the 450-foot level all three veins coursing through the property will be intersected and throughly explored, Mr. Lucot states.

NOTICE

From now on the Colfax Bakery will supply their products to the Sacramento Street Grocery, Nevada City, California.

FRENCH CORRAL ITEMS

FRENCH CORRAL, June 12, 1931, (Special to The Nugget)—Well, such freaky weather! The wise ones might carry an umbrella at all times. If not to protect against raindrops to moderae the sun's hot rays. A good rain of a few hours duration would be very welcome in this section. It could do no harm to fruit, cherries are gone, and grapes are not yet matured.

The Cherry Carnival, which is San Juan's own entertainment, is past, and was well attended. Many old time residents and friends meet on those occasions. It might be a good plan to call it the Ridge Reunion picnic and hold it in June. All exresidents know that the best cherries in the world are grown in San Juan, —and French Corral! We will change that and instead of saying "are grown" will simply say "grow" for they do grow without care or trouble and the trees that bear them are ages old—planted by our early pioneers.

Burgen O'Connor of San Francisco, son of the late John O'Connor of Birchville paid a visit to his relatives in that place last week.

This brings to mind that on Memorial Day, the O'Connor family of Birchville lost a treasured relic. Thieves drove into the yard at the O'Mara place, which belongs to them, broke open the home and took a "spool bedstead" which was the property of their beloved mother and was brought "round the Horn" over seventy years ago. Thieves stop at nothing, now-a-days.

Mrs. Nelly Putnam of Dixon was a week end visitor at the home of her brother J. W. Culver of French Corral.

Mr.and Mrs. R. McNamara of Tyler were also week end visitors.

Columbia Parlor N. 70, N. D. G. W. of French Corral held a meeting at their lodge rooms Friday afternoon.

Mrs. E. Sutherland in company with Mrs. E. Schwartz made a trip to Chico Friday evening.

Mr. and Mrs. May went to Sacramento Friday.

J. Monoghan of Grass Valley was a Friday visitor.

Thos. M. Parks mining man from Arizona, had business here Friday.

A. Browning and sons, Will and Walter made a trip to Forest Hill Saturday. Mr. Browning's son, Clyde returned from that place with him.

Warren Thomas made a business trip to Marysville Saturday for W. E. Moulton.

Geo. Alpers and F. Guns of Los Angeles were Saturday visitors.

Mr. and Mrs. C. Shrutleff of Nevada City, and Mrs. Shurtleff's brother, Robert Smith of Los Angeles, were Sunday visitors.

Mr. and Mrs. L. Dudley of Nevada City were Sunday visitors and attended the Cherry Carnival in San Juan.

Mr. and Mrs. F. Rundy and Mrs. J. N. Fogarty of Sacramento were here Sunday and also attended the Cherry Carnival at San Juan. Mrs. Fogarty, as Nelly Lampy, lived in Sweetland some fifty years ago. Her stepfather was W. Grant.

Mr. and Mrs. J. C. Williams of Grass Valley and his brother, Will Williams, and wife (nee Nora Walters) of San Francisco, attended the Cherry Carnival on Sunday and came to French Corral to visit with old friends. "Happy Jack" and Will were gay and jolly and made many a happy time for their friends in French Corral, where their childhood and young manhood days were spent In those days they figured in a minstrel troup of French Corral boys, of which the late Geo. Sweetland was also a member. Geo was on of the end men and to this day was known by his comrades as "Sambo". Needless to say the visit of the "Williams boys" was all too short for to suit their friends.

By an oversight we failed to mention that Mrs. Rose Williams and son, Guy, were visitors last week and were in attendance at the closing exercises of the French Corral school. Mrs. Williams was a resident of this place in her girlhood, and spent the early part of her married life here.

—0—

B. T. Dyer of Los Angeles is gettingt he Indian Hill Diggins, near Indian Valley, in readiness for a run next season.

Frtd J. Joubert, hydraulic mine owner of Oak Valley, is superintending the installation of equipment.

CAMP FIRE GIRLS ARE AT LAKE VERA CAMPS

Over three hundred young girls are enjoying a summer outing at Lake Vera four miles from here. The lake rings with laughter of young voices from early morning until taps in the evening.

ELK PROVE PROFITABLE TO ESKIMO IN ALASKA

and as a source of milk supply. The upkeep is practically nil because it forages its own food both in summerand in winter. As a traveler it is hard to beat because it can cover as much as a hundred miles a day, its broad hoofs particularly fitting it to get over the snow with considerable ease.

There is one pest which is proving a source of great annoyance and loss to the owenrs of the herds. This is what is known as the bottle fly, which stings the animal and The larvae hatch and cause the skin to fester resulting later in a hole which greatly decreases the value of the cured hide for commercial purposes. It is hoped that the government will soon take steps to stamp out this pest.

The large herds, which literally blacken the landscape, are moved by comparatively few herdsmen and the aeroplane is used extensivly in scouting out th route and in transporting supplies. As yet the greatest loss is from bear and wolves which raid the herds at all times.

An experimen t howecer is now being made, with every promise of succehs, in crossing the reindeer witt th caribou. The result is an animal which is much more sturdy andcapable of defending itselt against the attack of marauding animals. Wandering caribou will often attack and kill the reindeer buck and usurp the leadership of his does.

Large quantities of reindeer meat is shipped down the coast from Alaska into this state every year and with the increasing perfection of refrigeration we are going to be eating much of this very delectable those who have eaten the meat ofmeat. The reindeeris particularly free from disease of any nature and ten prefer it to our domestic products.

No Difficulty Here

When the elegant inlaid box of assorted cigarettes was passed, the guest just reached in and took one, which upon inspection seemed to be none of the recognized brands, although he was quite a connoisseur of smokes.

However, he politely lighted it and began to smoke it, when, at the first few puffs, his hostess gasped and said; "Goodness gracious, you've got one of grandpa's cigarettes for asthma!"

O RARE CONTENT

Schmul—Which would you rather have, a million or twelve daughters?

Levy—Twelve daughters.

Schmul—Why?

Levy—If I had a million, I'd want to have two, three, ten, a hundred millions more. But if I had twelve daughters, that would be enough!—Muskete.

SUMMONS

NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,

v.

JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid: that the claims or claim of said defendants is without right, and that they have not, nor has any, or either of them, any right, title, estate, lien or interest in said real property or any part or portion thereof.

The land and property affected by this action is:

All that certain real property situate in the City of Grass Valley,

LEGAL NOTICE

County of Nevada, State of California, and bounded and particularly described as follows, to wit:

All that portion of Lot 9 in Block 27 of the Town, now City, of Grass Valley, as said lot and block are designated upon the official map of the Town of Grass Valley made by Samuel Bethell in the year 1872, and more particularly described as follows, to wit:

Beginning at the South East Corner of Lot 9, on the North line of Neal Street of said City of Grass Valley, from which the South West corner of Lot 8, the intersection of the East line of Mill Street and the North line of Neal Street, bears N 57° 18' W at the distance of 208.11 feet; thence N 22° 34' E along the line between lots 9 and 10, 66.89 feet to the corner common to lots 9, 10 and 12 of said Block 27; thence N 18° 14' E along the line between lots 9 and 12, 47.14 feet to the North East corner of lot 9 on the West line of lot 12; thence N 67° 50' W along the line between lots 9 and 6A, 38.50 feet; thence S 23° 47' W. 105.73 feet to the Northerly line of Neal Street; thence S 57° 18' E along the Northerly line of Neal Street to the place of beginning.

GIVEN under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 15th day of May, A. D., 1931.

CAMPTONVILLE ITEMS

Mr. and Mrs. James A Taylor and family of Downieville spent Sunday visiting relatives in this section.

Frank J. Massa arrived Saturday from Oroville to spend the week end visiting his old home at Oak Valley.

P. Bouery, mining engineers of note, arrived here Friday and is doing some inspecting work at Grizzely Hill gravel property. He is stopping at the Hotel Francis.

Mr. and Mrs. Geirge Behrens and party of Peking, Illinois were here Saturdey on a brief visit.

Dr. and Mrs. Roscoe L. Clark, of Sacramento were in town Sunday on a short visit.

Mrs. F. S. Labadie and Mrs. Acton M. Cleveland motored to Nevada City Friday on a short visit.

Since the former announcement of the graduatiin exercises of the local branch high school, the Camptonville Union Grammer School decided to go in with the high school and hold a joint commencement program, which will be held on Saturday evening, June 6th., at the Masonic Hall, as formely announced.

Mr. and Mrs. Frank Bobb of Sweetland passed through town enroute to Grizzely Hill.

Mrs William C. Cunningham and family motored to Nevada City Saturday on a short visit to relatives.

Rev. Monsigneur Father Charles A. Ramm and brother John C. Ramm and Elwood C. Schurr motored to Milton Monday on a fishing trip.

Fred Hobson of Sacramento was in town Sunday visiting relatives.

For the first time in 36 years, Constable A. H. Behrens met his brother George Behrens Saturday afternoon, who is a resident of the City Treasurer of Peking, Illinois, arrived here on a brief visit. The brothers had not seen each other for 36 years at which time the Constable left the middle states and came west.

The Trustees of the Masonic Hall have announced a big benefit dance for Saturday evening ,June 20th., for the benefit of the hall. The Meltz Orchestra has been engaged to furnish the music, featuring the large organ chimes, and big supper will be served at midnight, with the usual good time assured the patrons. With their hall having been made one third larger, and their fine floor, an unusual good time is assured.

Well, here we are in June! Oh, Father Time, you are very old, yet you seem mighty speedy.

The past week has brought to us some pretty warm days but we must not begin complaining too soon. Yesterday was much cooler.

Cattle are still passing on to the mountains. Two large droves went through here during the past week. One of the droves belonged to Robinsan.

W. P. Clerkin and his sister, Miss Millie Clerkin were down from Pike City, Tuesday.

Memorial Day brought many visitors and relatives and friends were effectionately remembered with those ever beautiful symbols of love —flowers.

Mr. and Mrs. Cecil Hoffman and Mr. and Mrs. Melvin Koontz and children, Betty and Billy, of Sacramento, came up Saturday and returned Monday. Mr. Koontz is employed in the state engineering department and is interested in bridge building. He visited French Corral a short time ago and was pleased to come again as he found many things to interest him here. The covered wooden bridge across the South Fork of the Yuba river at Bridgeport which was built in 1862 and is still in perfect condition claimed his interest. This old bridge is certainly a relic and there is but one other like it now in this state.

Mr. Koontz made a trip to Camptonville Sunday to see the Pelton monument.

Mr. and Mrs. F. S. Wood and son Carl of Sweetland and Mr. Wood's sister, Mrs. E. Roux of Berkley, were Saturday visitors.

Will Culver of San Francisco, was in town and spent the week-end with his parents, Mr. and Mrs. J. W. Culver.

Mr. and Mrs. G. W. Wark of San-Francisco who were returning from a visit to Reno called on friends in French Corral Sunday. Mrs. Wark, who, before her marriage, was Miss Edna Hein, is a native of this place and her childhood and girlhood days were spent in this place.

Mr. C. Hoffman and son-in-law James Huntly ,of Sacramento, were Sunday visitors. Mr. Hoffman was one of ould time residents and enjoys a return visit to the ol dhome place at French Corral, occasionally.

Henry Majors, Floyd Bush, Henhy Vernon, H. Harris and Herman Beard of Berkely, visited the Browing family while on their way to Harris Meadows, Sunday, where they are going on afishing trip.

Mr. and Mrs. Martin of Lincoln, visited the Browning family Sunday.

Mr. and Mrs. D. Smith of Grass Valley, were visitors at the Browning home Sunday.

Mrs. Vivian and family of Bridgeport were visitors Sunday.

The many friends of George G. Sweetland will be sorry to hear that he passed away in Nevada City last Wednesday and was laid to rest in the cemetery in Sweetland Friday afternoon. He was a veteran of the Spanish American war and services were held in the Holmes Funeral Home at Nevada City and concluded at the grave in Sweetland. Although born in Sweetland he spent most of his life here at French Corral to which place he came to live with his sister, Mrs. Stephen Heath, when a boy only eighteen years of age. He was a man of bright intellect and had a wonderful memory; in fact he was a veritable encyclopedia of information on mining and historical events. His funeral was well attended by friends from all along the ridge.

We Were sorry to learn of the death of Andrew A. Carison, an old time resident of San Juan where his boyhood days were spent. His father in the early days conducted a brewery business at that place for many years. His family went to Bodie to live many years ago.

Vacation days have come to the Ridge and the program that was postponed last Monday on account of the death of Mrs. Schwartz was presented Friday evening, together with the diplomas to the graduating class. The graduates were Misses Irene Browning, Esther Shipley, Willie Browning, Teddy Schwartz, John Williams of Burchville was included with the French Corral class

---

MINING PERSONALS

These are just a few of the mining people who have visited here the past week. Many others were here whose names we failed to learn.

R. M. Fremont of Los Angeles representing Eureka Gold Mining Company is here to look over property belonging to the company in Washington district, which they are developing. The company also has promising property in Butte county.

Ernest Gerrand, who spent over 20 years in the Klondike in Alaska has been in town the past few days looking over the mining of the district. He was very favorably impressed. He was accompanied by E. J. Hickey, also of the Klondike rush days. They both are making Los Angeles their home.

Mr. and Mrs. Chas. Taylor of Tonopah and Gold Hill, Nevada spent several days here this week looking over mining properties and visiting friends. Mr. McMurray also of Tonopah was a visitor here.

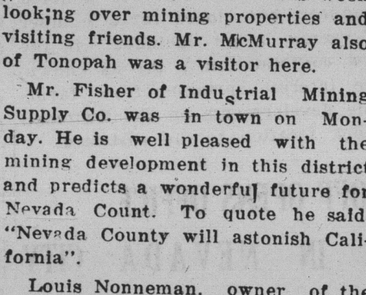
Mr. Fisher of Industrial Mining Supply Co. was in town on Monday. He is well pleased with the mining development in this district and predicts a wonderful future for Nevada Count. To quote he said, "Nevada County will astonish California".

Louis Nonneman, owner of the Delhi mine near North Columbia and his attorney Peter tum Suden, came up from San Francisco and are spending some time at the mine.

ANNOUNCEMENT

John Schepper of the Nevada City Skating Rink wishes to thank the peopleof Nevada City for their patronage at the Rink during the last two months.

They will return in the early part of the fall to reopen the Rink, and in the meantime wish all their friends and patrons a pleasant summer.



The correct table is always set so that each piece squares up with the edge of the table. A happy suggestion for the hostess who wants a cheerful, goodlooking table and a correct table is the Fostoria Glas in dinner service—now thought in dinner service—smart, modern squares—predominates all the way through and can be had in complte table appointments in adorabley exquisite colors. This open stock service is absolutely practical, washes and polishes with ease and is moderately priced.

W H HARTUNG & SON

GRASS VALLEY, CALIF.

You and I

By CHARLES S. KINNISON

THOUGHTS OF A FATHER

Some day I know I'll have to quit,
With many tasks unfinished.
And in my chair I'll have to sit,
With wit and strength diminished.
And someone, who is now a Lad,
Without one care or fetter,
Will take the place that I have had,
And likely fill it better!

And this is true of every man,
Whatever be his station.
With work half-done, with untried plan,
We'll meet our destination.
And, Lad of mine, may you, from me,
Acquire no touch of my flaws—
So that the world, in you, may see
A better man than I was!

PERSONALS

Mr. and Mrs. H. E. Kjorlie have gone to Minneapolis to vihit their parents. While there they will attend the golden wedding celebrations of the parents of both.

Addison Janes, student at U. C. and a member of the naval unit, is on a cruise on U. S. S. Oklahoma to the Hawaiian waters.

Miss Elizabeth Janes and her mother have gone to Berkeley to spend the summer where Miss Janes will attend summer session of U. C

The many friends of W. G. "Billy" Richards will be sorry to learn of his illness due ta a bronchial disturbance.

Thomas Richards, who accompanied the late Frank J. Gluyas to Los Angeles returned Wednesday.

MISS MINNIE BRAND'S MUSIC CLASS GIVES RECITAL

Miss Minnie Brand of the Brand Studio gave a musicalrecital Wednesday evening, her young pupils taking part.

Marshal W. Giselman, musician ofnote, rendered several selections which were greatly enjoyed by all.

DISCOVERY OF GOOD ORE VALUES NEAR SAN ANDREAS

San Andreas, Calif., June -2—Exhaustive tests are at present being made by Los Angeles metallurgists on ore of the Ford mine, near San Andreas, for guidance in the erection of a reduction plant on the property, which is being operated by F. A. Mansfield and J. B. Ferguson, of that southern California city, with D. Brewster Boyden, formerly of Mexico, as consulting engineer and Joseph E. King, veteran Mother Lode mine operator, as mine superintendent. With recent disclosures, it is estimated by Supt. King that the available ore in the property, which has a depth of 750 feet, measures 300,000 tons of an average value of $7.50 per ton in gold.

Gold progress is being made, he reports, in new underground work at the mine. On the 100-foot level a new south drift on the hanging wall vein is advancing on a full face of ore asaying from $10 to $15 a ton. Similar values and width of ore are being obtained in the extension of a new south drift on the same vein on the 300- level. A 15-foot prospect shaft on the same vein on the surface, at a point 490 feet south of the main shaft, has exposed five feet of ore assaying from $15 to $25 a ton in gold, according to Mr. King. In the north drift on this vein on the 100-foot level assays as high as $2,000, a ton have been obtained.

For more than six months, Malcolm Loughead of Los Angeles, who, with his brother, Allen Loughead, invented the "Lockheed" airplane and "Lougheed" hydraulic brake, has been developing, as a private enterprise a 40-acres lode mining property at Whiskey Slide, eight miles east of Mokelumne Hill, From the outset, his operations have been crowned with success, with the result that he is now building a 10-stamp mill, with a ball mill and oil flotation units, all of which, he estimates, will be ready for use within the next 30 days.

On the 100-foot level of an incline shaft, which is now being sunk to the 200-foot point, a north drift has been advanced 535 feet and a south drift of 50 feet. In the north drift, an orebody, averaging in width five feet and in value $9.90 per ton in gold, has been exposer for a length of 200 feet, Mr. Loughead states. Picked samples of the ore assay as high as $621.34 per ton. At the 200-foot point, when reached by the shaft, a north drift will be advanced to tap the orebody on that horizon.

NEVADA CITY SKATING KINK CLOSES WEDNESDAY NIGHT

The Nevada City Skating Rink which has afforded much pleasure for the young people of the community closed on Wednesday evening with a grand carnival. There were over 170 skaters on the floor and the spectators gallery was crowded.

Miss Erma Keller and W. L. Lawson entertained with fancy skating including waltzing on skates.

The Scheppers go from here to Susanville for a two months engagement but plan to return here in the fal.

The brothers had not seen each other for 36 years at which time the Constable left the middle states and came west.

The Trustees of the Masonic Hall have announced a big benefit dance for Saturday evening ,June 20th., for the benefit of the hall. The Meltz Orchestra has been engaged to furnish the music, featuring the large organ chimes, and big supper will be served at midnight, with the usual good time assured the patrons. With their hall having been made one third larger, and their fine floor, an unusual good time is assured.

Well, here we are in June! Oh, Father Time, you are very old, yet you seem mighty speedy.

The past week has brought to us some pretty warm days but we must not begin complaining too soon. Yesterday was much cooler.

Cattle are still passing on to the mountains. Two large droves went through here during the past week. One of the droves belonged to Robinsan.

W. P. Clerkin and his sister, Miss Millie Clerkin were down from Pike City, Tuesday.

Memorial Day brought many visitors and relatives and friends were effectionately remembered with those ever beautiful symbols of love —flowers.

Mr. and Mrs. Cecil Hoffman and Mr. and Mrs. Melvin Koontz and children, Betty and Billy, of Sacramento, came up Saturday and returned Monday. Mr. Koontz is employed in the state engineering department and is interested in bridge building. He visited French Corral a short time ago and was pleased to come again as he found many things to interest him here. The covered wooden bridge across the South Fork of the Yuba river at Bridgeport which was built in 1862 and is still in perfect condition claimed his interest. This old bridge is certainly a relic and there is but one other like it now in this state.

Mr. Koontz made a trip to Camptonville Sunday to see the Pelton monument.

Mr. and Mrs. F. S. Wood and son Carl of Sweetland and Mr. Wood's sister, Mrs. E. Roux of Berkley, were Saturday visitors.

Will Culver of San Francisco, was in town and spent the week-end with his parents, Mr. and Mrs. J. W. Culver.

Mr. and Mrs. G. W. Wark of San-Francisco who were returning from a visit to Reno called on friends in French Corral Sunday. Mrs. Wark, who, before her marriage, was Miss Edna Hein, is a native of this place and her childhood and girlhood days were spent in this place.

Mr. C. Hoffman and son-in-law James Huntly ,of Sacramento, were Sunday visitors. Mr. Hoffman was one of ould time residents and enjoys a return visit to the ol dhome place at French Corral, occasionally.

Henry Majors, Floyd Bush, Henhy Vernon, H. Harris and Herman Beard of Berkely, visited the Browing family while on their way to Harris Meadows, Sunday, where they are going on afishing trip.

Mr. and Mrs. Martin of Lincoln, visited the Browning family Sunday.

Mr. and Mrs. D. Smith of Grass Valley, were visitors at the Browning home Sunday.

Mrs. Vivian and family of Bridgeport were visitors Sunday.

The many friends of George G. Sweetland will be sorry to hear that he passed away in Nevada City last Wednesday and was laid to rest in the cemetery in Sweetland Friday afternoon. He was a veteran of the Spanish American war and services were held in the Holmes Funeral Home at Nevada City and concluded at the grave in Sweetland. Although born in Sweetland he spent most of his life here at French Corral to which place he came to live with his sister, Mrs. Stephen Heath, when a boy only eighteen years of age. He was a man of bright intellect and had a wonderful memory; in fact he was a veritable encyclopedia of information on mining and historical events. His funeral was well attended by friends from all along the ridge.

We Were sorry to learn of the death of Andrew A. Carison, an old time resident of San Juan where his boyhood days were spent. His father in the early days conducted a brewery business at that place for many years. His family went to Bodie to live many years ago.

Vacation days have come to the Ridge and the program that was postponed last Monday on account of the death of Mrs. Schwartz was presented Friday evening, together with the diplomas to the graduating class. The graduates were Misses Irene Browning, Esther Shipley, Willie Browning, Teddy Schwartz, John Williams of Burchville was included with the French Corral class

MINING PERSONALS

These are just a few of the mining people who have visited here the past week. Many others were here whose names we failed to learn.

R. M. Fremont of Los Angeles representing Eureka Gold Mining Company is here to look over property belonging to the company in Washington district, which they are developing. The company also has promising property in Butte county.

Ernest Gerrand, who spent over 20 years in the Klondike in Alaska has been in town the past few days looking over the mining of the district. He was very favorably impressed. He was accompanied by E. J. Hickey, also of the Klondike rush days. They both are making Los Angeles their home.

Mr. and Mrs. Chas. Taylor of Tonopah and Gold Hill, Nevada spent several days here this week looking over mining properties and visiting friends. Mr. McMurray also of Tonopah was a visitor here.

Mr. Fisher of Industrial Mining Supply Co. was in town on Monday. He is well pleased with the mining development in this district and predicts a wonderful future for Nevada Count. To quote he said, "Nevada County will astonish California".

Louis Nonneman, owner of the Delhi mine near North Columbia and his attorney Peter tum Suden, came up from San Francisco and are spending some time at the mine.

You and I

By CHARLES S. KINNISON

THOUGHTS OF A FATHER

Some day I know I'll have to quit,
With many tasks unfinished.
And in my chair I'll have to sit,
With wit and strength diminished.
And someone, who is now a Lad,
Without one care or fetter,
Will take the place that I have had,
And likely fill it better!

And this is true of every man,
Whatever be his station.
With work half-done, with untried plan,
We'll meet our destination.
And, Lad of mine, may you, from me,
Acquire no touch of my flaws—
So that the world, in you, may see
A better man than I was!

PERSONALS

Mr. and Mrs. H. E. Kjorlie have gone to Minneapolis to vihit their parents. While there they will attend the golden wedding celebrations of the parents of both.

Addison Janes, student at U. C. and a member of the naval unit, is on a cruise on U. S. S. Oklahoma to the Hawaiian waters.

Miss Elizabeth Janes and her mother have gone to Berkeley to spend the summer where Miss Janes will attend summer session of U. C

The many friends of W. G. "Billy" Richards will be sorry to learn of his illness due ta a bronchial disturbance.

Thomas Richards, who accompanied the late Frank J. Gluyas to Los Angeles returned Wednesday.

DISCOVERY OF GOOD ORE VALUES NEAR SAN ANDREAS

San Andreas, Calif., June -2—Exhaustive tests are at present being made by Los Angeles metallurgists on ore of the Ford mine, near San Andreas, for guidance in the erection of a reduction plant on the property, which is being operated by F. A. Mansfield and J. B. Ferguson, of that southern California city, with D. Brewster Boyden, formerly of Mexico, as consulting engineer and Joseph E. King, veteran Mother Lode mine operator, as mine superintendent. With recent disclosures, it is estimated by Supt. King that the available ore in the property, which has a depth of 750 feet, measures 300,000 tons of an average value of $7.50 per ton in gold.

Gold progress is being made, he reports, in new underground work at the mine. On the 100-foot level a new south drift on the hanging wall vein is advancing on a full face of ore asaying from $10 to $15 a ton. Similar values and width of ore are being obtained in the extension of a new south drift on the same vein on the 300- level. A 15-foot prospect shaft on the same vein on the surface, at a point 490 feet south of the main shaft, has exposed five feet of ore assaying from $15 to $25 a ton in gold, according to Mr. King. In the north drift on this vein on the 100-foot level assays as high as $2,000, a ton have been obtained.

For more than six months, Malcolm Loughead of Los Angeles, who, with his brother, Allen Loughead, invented the "Lockheed" airplane and "Lougheed" hydraulic brake, has been developing, as a private enterprise a 40-acres lode mining property at Whiskey Slide, eight miles east of Mokelumne Hill, From the outset, his operations have been crowned with success, with the result that he is now building a 10-stamp mill, with a ball mill and oil flotation units, all of which, he estimates, will be ready for use within the next 30 days.

On the 100-foot level of an incline shaft, which is now being sunk to the 200-foot point, a north drift has been advanced 535 feet and a south drift of 50 feet. In the north drift, an orebody, averaging in width five feet and in value $9.90 per ton in gold, has been exposer for a length of 200 feet, Mr. Loughead states. Picked samples of the ore assay as high as $621.34 per ton. At the 200-foot point, when reached by the shaft, a north drift will be advanced to tap the orebody on that horizon.

EDUCATIONAL PROGRAM STARTED BY FUND

SENATE INVESTIGATING COMMITTEE RECOMMENDATIONS CARRIED OUT

The following letter from Frank J. Creede to Senator Bert A. Cassidy of Auburn, a member of the Senate committee that investigated Compensation Insurance Rates on mining, informs him that a start has been made to carry out an educational program to help those participating in the mining industry to become more safely minded. The committee was an interim body that met for the purpose of carrying on the investigation and reporting back to the Senate before adjournment. The report was favorably received by both the press of the state and the industry interested. Newspapers declared the report to be one full of constructive suggestions.

"Hon. Bert A. Cassidy,
Auburn, Calif.
Dear Senator Cassidy:

It though you would be interested in the enclosed pamphlet. Following out the thought expressed in your report that a great deal of educational work must be done before the mining industry would become safety-minded, we are making a start along this line.

With best personal regards, I am
Sincerely yours,
FRANK J. CREEDE."

A portion of the circular which has been published by the Fund and is being circulated among the mining men is being printed herewith:

"Mine accident losses may be aptly compared to an iceberg. A small part is visible. But by far the larger part remains submerged and unseen.

"The visible, direct loss from mine accidents is due to the compensation of injured workers. This is the part reflected by your compensation insurance premium.

"The invisible, indirect loss is more complex. Damaged equipment. Time lost by curious or sympathetic fellow workers. Slowed up production. Labor troubles and bad feeling which often follow frequent accidents. All these and many other factors may enter into the indirect loss.

"This indirect loss is not covered by your insurance. It is an additional drain on your profits. The United States Bureau of Mines conservatively estimates that this hidden drain has cost California mine operators $7,255,500 during the last five years over and above their compensation insurance premiums which amounted to $2,084,300.

More Hidden Danger

"But even this indirect loss does not represent your total accident bill. From the same causes many accidents occur, which involve no personal injury or compensation payments. A cave-in many occur, fortunately just missing a man or a crew. Such a near accident causes no bodily injury. It calls for no compensation payments. Yet it may prove very expensive to you by delaying production, damaging equipment, reducing the efficiency of your workers by making them nervous, jumpy, or over-cautious.

"How important a factor are these near-accidents in your overhead? Here is an indication: The Department of Labor quotes on authoritative estimate which fixes the proportion of narrow escapes to disabling accidents at three hundred to one."

Mr. Creede is manager of the State Compensation Insurance Fund, with offices in San Francisco.

MITCHELL RANCH PROPERTY PLANS RENEWED ACTIVITY

Renewed activity at the Mitchell Ranch property, east of Grass Valley, was forecast by developments of last week. C. C. Mitchell, the owner, stated that important developments were pending.

A shaft has been sunk on this property and good ore of values were encountered.

NEVADA CITY IS BOOMING AT LAST

Whomsoever thinketh that Nevada City is not coming into more prominence than it has had in a generation before, has another think coming.

This district is now attracting more attention in a mining way than any other district along the entire west coast.

As many as three groups of men representing capital have sought information on mines here from a single source in one day of this week.

With the Murchie Mine production running into five figures monthly and only two of its twelve or more konwn veins as yet prospected. With it's highest grade ore running over five hundred dollars a ton. With the Hoge properties at shallow depth of 300 feet having an ore body exposed which the most conservative engineers admit has a visible gold value of $300,000, not counting it's $60,000 worth of ore on the dump which it has reserved from shipment. With the J. M. Hoff consolidations on upper Deer Creek, reopening the Bellefountain the Constitution, the Fedral Loan, the Lecompton and the St. Louis; the installation of modern flotation and the employment of many men, Nevada City now hasnotless than 200 men engaged in mining, or more than has been employed in this business since 1920.

This improvement is also reflected in the city itself. It is noted in increased automobile traffic to such an extent that we now have to look both ways before attempting to cross the street with as great care as we would in some of thelarger cities.

If someof the larger consolidations now being financed in the south are consummated Nevada City District will soon have no less than 500 men on her payrolls.

ANNUAL REUNION OF NEVADA COUNTIANS

Former Chief Justice Matt I. Sullivan of San Francisco and Gov. ernor James Rolph, Jr., will be guests of honor at the annual reunion and picnic of the former Nevada County Residents Association at the state fair grounds on June 14th This was announced recently.

Judge Sullivan will deliver the oration of the day. Last year 5,000 present and former Nevada County citizens attended the celebration, and this year a still larger crowd is expected. Wm. H. Shebley is the chairman of the committee on arrangements. Automobile caravans will bring large delegations from San Francisco, Grass Valley and Nevada City.

A tug-of-war between fire departments of Grass Valley and Nevada City will be a feature of the sports program, which will include the usual races and contests. A trophy is to be awarded the winner by T.C. Monk, Sacramento jeweler.

All persons attending are asked to bring basket lunches. Coffee, sugar, and cream will be served on the grounds.

Besides Chairman Shebley, other members of the committee inclue G. G. Radcliff, Wm. Hicks, Harriet Crider, Eugene Irving, Lewis Bane, Henry Wicks, Florence Morris, Wm. Torpie, Mary Frank, Clara Massie, Ed Melarkey, Wm. Mullenney, Fred Horrell, Elizabeth Stone and T. C. Monk.

GRIZZLY HILL HYDRAULIC MINE IS BEING TESTED

A thorough test is being given the gravel property of the Grizzly Hill Hydraulic Mine by P. Bouery, who for years was manager of the La Grange Hydraulic Mine in Trinity County, reputedly the largest hydraulic mine in the world. The mine is about two miles fromIndian Valley.

Mr. M. C. van Loben Sels president of the American Foundation company was in town this week in the interest of the Murchie Mine.

JUDGE WALLING IS CALLED HOME

Judge J. M. Walling, California pioneer, Civil War veteran and dean of the Nevada County bar passed away at an early hour Thursday morning.

While Judge Walling had been in feeble health for some time the news of his death spread over the community and county rapidly and caused the passing of many regrets

Julius M. Walling was born near Davenport, Iowa, June 21, 1841 where he was reared and educated.

He went to the aid of his country Aug. 12, 1861 as a private in the 8th Iowa Infantry. He was captured in April 1862 and spent a year in the famous Libby prison before being exchanged. He again joined General Grant's forces. In 1865 he was commissioned first lieutenant At the end of the war he washonorably discharged.

On March 1, 1866, Mr. Walling sailed from New York to California via Panama to join his father who had crossed the plains in 1850 and settled in Rough and Ready.

Later he attended business college in San Francisco from which he was graduated.

In 1872 Mr Walling was elected county recorder of Nevada County holding the office for one term. In the meantime he began his study of law. From 1874 to 1876 he served as Justice of the Peace in Nevada City. In 1876 he was admitted to the bar and began an active practice of law which he continued until about five years ago.

He wos married in Rough and Ready May 12, 1872 to Miss Columbine E. Snell. Mrs. Walling passed away seven years ago.

The following children survive: Mrs. Mamie Parsons, J. M. Jr. and George of Nevada City, Mrs. Vesta Maher of Oakland, and Earl of Fresno. A niece, Mrs. Maude Haynes of San Francisco was raised by the Wallings.

There are three grandchildren Rolla Arthur, Theodore Arthur and William Maber Jr. and two great William Maher, Jr., and two great and Donald Arthur.

Fraternally he was a member of Chattanooga Post 115 G. A. R. of which he was Past Commander. He also served as Department Commander of California and Nevada in 1894.

He was a Past Grand Master of the Odd Fellows and a member of theNeva Rebecca Lodge.

Funeral services will be at the Hall in Nevada City with the Odd Fellows having charge of the rites. Rev. Buckner will assist with the services.

At the grave the services will be in charge of the Spanish and World War veterans. Interment is at Pine Grove Cemetery.

Mrs. J. C. Tyrell,president and and Mrs W. E. Wright se,cretary were reelected for the ensuing yea

Mrs. C. Bennetts was chairman of the meeting. Bridge and Mah Jong were played. Dr. and Mrs. Shirkey won the honors at Bridge and Mrs. C. Ferguson in Mah Jongg

FRANK J. GLUYAS MINE SUPT. DIES

Frank J. Gluyas passed away Saturday evening at midnight on the train enroute to his home in Los Angeles after a visit of two months with his sister, Mrs. W. B. Rishards He was accompanied on the trip south by Thomas G. Richards of this city. His death was due to pernicious anemia and upon the advice of local physicians sought the lower altitude but the droed disease had made too great inroads on his health, and death overtook him before he reached home.

Born in Amador City, Amador County, October 3, 1860, he was the son of the late Mr. and Mrs. James B. Gluyas, pioneers of California. When four years of age he came to Grass Valley with his parentsandattended the schols of that city.

In 1876 his parents moved to Gold Hill, Nevada, taking the young lad with them. Later he went to San Francisco and spent four years at the Risdon Iron works learning the trade of machinist and draftsman.

He returned to Grass Valley in 1880 and helped to install the machinery in the North Star Mine and for three years was chief engineer at the mine.

In 1890 he went to Rosario, Sinaloa, Mexico, where he was superintendent of the Minas del Tajo owned by Bradbury Bros. of Los Angeles. He returned to California but went again to Mexico in 1915.

While in Mexico he had many experiences with the bandits being surrounded twice and once he and one of his men were captured by some of Pancho Villa's men. He was released to get the ransome money but met the federal officers before he had gone far form the bandits camp.

He returned to California in 1918 but later went to Mexico again todevelop and operate other mines.

Failing inhealth he came to Nevada County hoping that the altitude would prove beneficial to his health. He enjoyed the visit with his sister and brother-in-law, Mr. and Mrs. W. G. Richards, very much and renewed old friendships.

He was very much impressed with the mining possibilities of this district and hoped to interest some of the mining companies in Mexico to come to this district. With this in mind he mailed a number of the Nugget'h Special Mining Number to friends in Mexico. He clung to the faith that his health would return and that he would be able to operate a mine in this district.

Heis survived by his widow, Mrs. Dora Gluyas of Los Angeles, a daughter, Mrs. Frances Craig of Dallas Texas and his sisters, Mrs. W. G. Ricards of this city, and Mrs. Clem Schuster, Mrs. H. Pfiefferer of Applegate and a brother, H. G. Gluyas of Sinalca, Mexico.

The funeral services were held Thursday afternoon in Los Angeles and the interment was made in that city.

—0—

W. E. Morris who was responsible in getting Fred Bradley interestet in the Boss Mine at Sweet land has been in French Corral the past week examining the Dahlberg property.

Here We Are

SIERRA CONSOLIDATED HAS REORGANIZED

The Sierra Consolidated situated in the Alleghany district has been leased to the Berkeley Mines, Ltd., composed of a group of men, stockholders, of the Sierra Consolidated who have faith in the mine and who are anxious to get the development work underway. The work will start by the 20th of the month

A group of officers and stockholders visited the property over the weekend. They inspected th property and visited other mines in the district including the famous producer the 16 to 1 which holds the record of gold production and which adjoins the property of the Sierra solidated.

Miles Brent made a survey of the mine tunnel and surface to determine the closeness to the contact. E. W. Brown another member of the party inspected the machinery and equipment and found both in excellent condition.

The party included Harry G. Mack President Sierra Consolidated, and Mrs. Mack, Frank Dievendorf, President Berkeley Mines, E. W. Brown R. H. Batchelor, R. W. Bachelor, Miles Brent, surveyor and engineer, Julius Delmothe and John WeWilde besides several interested prospective investors.

—0—

REPORT IS MADE EMPIRE-STAR MINE

While no statements are issued locally, a report reaching Grass Valley and Nevada City by way of San Francisco accredits the Empire-Star Mines ,Ltd., operating the merged Empire-North Star-Pennsylvania properties, with producing approximately $100,000 in gold per month. The company is understood to be operating at full capacity, with milling laregly concentrated at the Empire plant. In ecxess of 500 men are engaged in the various capacities.

It has been learned that renewed activity in the Allison ranch section are imminent, options having been taken on what is Syndicate ground and some adjoining holdings. The Allison Ranch Mine, once a noted producer, but closed for a number of years, is not included in the new consolidation, s far as known, the interest springing from favorable developments on the Twitchell ranch location to the eastward.

—0—

HOFF OPENS OFFICE IN NEVADA CITY

With his interests expanding in the Deer Creek district, and mill construction work about completed for the Federal Consolidated Mines, limited in the St. Louis and Constitution claims, J. M. Hoff, who opened the Murchie mine two years ago opened offices for his various activities at Pine and Broad Streets, Nevada City. Mr. Hoff has organized the Nevada County Mines Syndicate and the Steep Hollow Syndicate as subsidiary activities of the Federal Consolidated. The organization is now in control of a number of major properties and brings into the district a growing staff of field and office personnel. Associatew with Mr. Hoff is Attorney H. J. Rogers of San Francisco who has installed a Nevada City law office in connection with Mr. Hoff's activities. Mr. Rogers entered practice from the University of California, served a 4 year term as chief deputy auditor of Alameda county and was land and tax attorney with the Spring Valley Water Company at San Francisco. He later was with the securities division of the State Railroad Commissio and has enjoyed about twenty one years practice as a member of the California bar.

The Nevada City office will be headquarters for all the operations of Mr. Hoff. Oil flotation is to be introduced at once at the St. Louis mill and it is estimated that ore will be going through that plant within the next three weeks. Work is being pushed on the Constitution shaft, practically all the surface workings having been installed. Crews are busy on the Cyne, Belle Fountaine, LeCompton and Federal

DORR CO AND OLIVER UNITED FILTERS MERGE

MERGING OF THESE FIRMS PUTS NEW LIFE IN GOLD THE MINING INDUSTRY

John Van Nortrand Dorr and Edwin Letts Oliver have announced a union of the business and assets of The Dorr Company and Oliver United Filters, Inc. This union was brought about on June 1st by the formation of a new company, to be known as Dorr-Olive Corporation, under the joint management of Messrs. Dorr and Oliver.

Dorr-Oliver Corporation will function through its two wholly-owned operating units, a new Dorr Company, Inc., and a new Oliver United Filters Inc. Mr. Dorr and Mr. Oliver will lead their respective companies and with the aid of their present executive and technical staffs, will continue on behalf of Dorr-Oliver Corporation, the businesses which they have individually initiated, organized and expanded so successfully in the past.

The businesses of the two uniting companies are of long standing and complementary. The Dorr Company occupies a leading position in the fields of agitation, classification and sedimentation through its equipment, built up around the original inventions of its founder, John V. N. Dorr; and the Oliver United Filters Inc., occupies a similar position in the field of filtration through the inventions of Edwin L. Oliver and E. J. Sweetland.

The union should, therefore, make it possible offer to industry a more complete line of equipment and engineering service than either company could hope to offer individually.

The growth and success of the Dorr and Oliver businesses have been due, to a great extent, to constructive policies of constant development and research and a broadening of the fields of usefulness in anticipation of the constantly changing needs of the basic industries which they serve. Their field are related so closely from a technical standpoint, that the joint use of technical information and the carrying on of joint research and development is expected to result in more effective development and improvment which they have contributed to industry.

Both companies have built up technical staffs and manufacturing facilities at strategic locations throughout the world for the carrying on of their businesses which have grown to international proportions. The common use of these established facilities should give fuller prompter and more efficient service to clients.

The two companies have frequently cooperated on the same projects, and in many instances, the equipment of both is used at different stages of operation in the same plant. The founders of both companies have enjoyed a friendship extending over almost a quarter of a century and the long acquaintance of many members of the staffs has prepared them for effective cooperative effort.

Under the union of interest now effected, there will be preserved to client the close relations which they now enjoy with the respective staffs of the old organizations.

—0—

NEWTOWN MINE BEING UNWATERED AND SAMPLED

The water has been pumped from the Newtown mine west of Nevada City and sampling of the large ledge explored there by a former management, is under way.

Some of the ore in the Newtown section carries a heavy copper content, and when copper was at a good figure several parties looked over properties with a view to buying.

—0—

Miss Martha O'Connor has been elected to teach in the Pleasant Valley school.

Miss Therese O'Connof of French Corral was a Nevada City visitor Thursday.

—0—

Loan properties, each embracing a group of claims on Deer Creek just above the Murchie. A group of San Francisco and New York interests are financing Mr. Hoff's operations.
